Requirements for website development

1. Domain registration and hosting – We can provide and host a domain as part of our service. If you want to use an existing domain that you own, you need to provide us with the CPanel details which your host provided you with.
2. Design – We design a website according to your tastes and specifications. If there is a design or an existing website which inspires you, please let us know about it at the beginning so that we model your design around that from the beginning.
3. Our service is to design and develop the website. You provide us with the content which you want to be uploaded to the site. For a start we need your company profile and other information about your company and products and services which you want to be displayed on the website.
4. Images – You need to provide us with quality images to upload on your site which reflect the message you want to get across through the website.
5. Payment. You pay 50% of the cost of the website at the start of the project and the balance becomes due once it is completed.
6. Functionality – Functionalities such as membership database, online payments, online chat and other value-added services can be incorporated to your site and they attract separate charges of their own.
7. A basic website consists of Home Page, About Us, Contact Us, Products/Services, Gallery, Portfolio and News and Features pages. More pages may be added in line with your specific requirements as the purpose and best structure of websites differs with industry.

List of information/media to be provided

1. Company profile
2. Images and any other media as required
3. A brief of how you want your website to be done (Including any websites that inspire you if any)
4. Text content to be uploaded. (N.B. We will assist with content for generic pages such as the contact us pages. However you will need to provide your specific content regarding your company and your products and services.)
5. Company contact information and addresses as you would like them to appear on the website
